A **Sponsor sign** is not just another sign!

Its about Providing **Value And Recognition** To Your Sponsors

The "fair deal" between any tournament organizer and their sponsors is that in return for a financial or in-kind contribution, sponsor names and logos will be (ideally) in front of players before, during and after the tournament. Logos, corporate names and individual names should always be presented in quality and quantity that is respectful, professional and enhances their brand.

*You promise that your sponsors will be rewarded for their participation...*

*Teeblockers delivers on that promise*
