Tee box re-leveling

There are a few tee boxes on the course that have worn away over the years and become unlevel. Throughout the fall, our maintenance staff has been working on re-leveling many of these tee boxes which will be ready for use spring 2012.

Current list of tee boxes that have been completed:
#2 Ladies, #5 Ladies, #7 Blue, #9 White, #11 Ladies,
#12 Ladies, #13 Ladies, #14 Ladies & #18 Ladies

Bunker re-facing

Throughout the life of a bunker the face of the bunker can get worn down. This is caused by years of sand constantly being thrown onto the grass area of the bunker by golf shots.

During the fall months our maintenance staff has begun work to re-shape and sod several bunkers throughout the course. This work will greatly improve the overall aesthetics of the bunkers for the 2012 season and beyond.

Private Lessons

The best time of year to learn the game or make swing changes is always in the off-season. The reason? Golfers are not as focused on immediate results as they would be during the golf season. This allows you to have the patience and time and to perfect any changes and be ready to bring them to the course in the spring! One on one private lessons are the most impactful way to accomplish this.

Winter Lesson Features:

- Fully heated indoor facility
- 4 Hitting bays (4 Additional @ RH Country Club)
- 300 Square foot putting/chipping green
- Video swing analysis
- Custom club fitting & Vector launch monitor

Our Academy Director, Shawn Clement, was recently nominated for the 2011 Ontario PGA Teacher of the Year award. Congratulations Shawn!
